

Documentation of Public Meeting

Project Location

Hays County

Ranch-to-Market 150

CSJ: 0805-04-028; 0016-17-013

Project Limits

From I-35 to Ranch-to-Market 150 West of Kyle

Meeting Location

Wallace Middle School (Cafeteria)
1302 W. Center Street, Kyle, TX 78640

Meeting Date and Time

August 2, 2018 from 4:00 p.m. to 7:00 p.m.

Translation Services

Spanish and ASL translation available at meeting

Presenters

N/A

Elected/Public Officials in Attendance

Commissioner Mark Jones, Hays County, Precinct 2
Commissioner Ray Whisenant, Hays County, Precinct 4

Total Number of Attendees (approx.)

172

Total Number of Commenters

34

A. Comment/Response Matrix

Commenter Number	Commenter Name	Date Received	Source	Comment	Comment Topic	Response
1	Evangelina Chapa	8/2/2018	Comment Card	We are concerned about County road tax. What is the percentage breakdown increase on taxes for individual household. Since this is proposing to be planned next to a school, is the Southern connection being connected to service lane via Opal or is it going to angle towards the Yarrington road bridge. Is there going to be modification to current Yarrington Bridge to facilitate on fly over connection to IH 35 North and South.	Impact to taxes Connection to I-35	Funding for construction has not yet been identified at this point and can potentially come from multiple sources (state, federal, and local partnerships). Yarrington Road was identified as a preferred connection point to I-35 as there is an existing overpass at the Union Pacific Railroad and the direct connection to I-35.
2	Anna Boling	8/2/2018	Comment Card	D-3, Not D-21 After discussion with some city officials, it is my understanding that the property owners on each side of S. Old Stagecoach Rd do not care if the road goes through their properties. I am in D-2 and obviously I object to it going through my fairly recently acquired property which is my home & business. We are surrounded by oaks, some heritage oaks. Call me if you would like to discuss. Anna Boling [phone number redacted]	Preference for D3 Opposition to D2 Concern for personal property	Your preference has been noted and public input will continue to be an important part of this project. The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and considerations such as personal property, vegetation, and trees will be evaluated and considered within the EIS.
3	Juanita Parsons	8/2/2018	Comment Card	If the project proceeds, my preference would be D1 - my least desirable would be D4. Thank you for considering my input. Major concerns: noise, animal habitat, air pollution, water impact.	Preference for D1 Opposition to D4 drawn on map by public Impacts to community and environment	Your preference has been noted and public input will continue to be an important part of this project. The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and considerations such as noise, wildlife, and air and water quality will be evaluated and considered within the EIS.
4	Roger Falk	8/2/2018	Comment Card	1. Should this "plan" not come to fruition, do you have a Plan "B"? With the growth in the area, 150 will need greater capacity. 2. Who will assume the maintenance of 150 in town and Center Street in particular should this change happen?	Backup plan Ownership and maintenance of road	Currently, TxDOT and Hays County plan to move forward with the environmental process to identify a recommended alignment. At this point, there is not a backup plan to address the purpose and need for this project. Should the No-Build alternative be selected, roadway congestion and development in the area are expected to continue. TxDOT, Hays County, and the City of Kyle will coordinate on ownership and maintenance of the existing RM 150, Center Street, and any new alignments if a build alternative is selected.
5	[Not provided]	8/2/2018	Comment Card	I've been to these meetings before, and it was clear to me at the first one that Corridor C was already chosen. The reports were printed with that option as the featured one. The other corridors were listed merely for show. What we, the residents, want does not matter, as someone has already decided who will benefit from the building of a road that bypasses Kyle. Why are certain areas already protected from having a road go through them? I wish you people would stop assuming we are too ignorant to see what is happening here. Printing out one map that shows only one option makes it clear what we say is irrelevant. If you were truly to show options, you would have planned this road to be the shortest, cheapest route to I35. That is to go through Kohler's crossing - an existing wide road. But I guess that would make it harder to hide the water line going to feed the unmanaged growth in Dripping Springs, wouldn't it?	Questions on protected areas Preference for Kohlers Crossing Transparency and public input process Water line	The Corridor C was previously identified as the preferred area to evaluate different alignments for this project. The Kohlers Crossing connection was not selected in the previous study due to the proximity and impact to the schools and the lack of overpasses at UPRR and I-35. In addition, the City of Kyle Transportation Master Plan identifies a loop that would help serve traffic looking for a connection to I-35 near Kohlers Crossing. Travel patterns will be evaluated as a part of this study. Public involvement is an important part of this process and the project team is evaluating all new alignments and input shared by the public.
6	[Not provided]	8/2/2018	Comment Card	Who will be paying for this? Developers? Will there be a pipeline with it? I believe it's more necessary and definitely more beneficial to improve existing roads. Entrance - dangerously close to Arroyo Ranch. Why DS to 35? Eludes downtown Kyle.	Funding Pipeline Arroyo Ranch safety concerns Connection to I-35	Funding for construction has not yet been identified at this point and can potentially come from multiple sources (state, federal, and local partnerships). This NEPA study is for a roadway facility and does not include planning for water or pipelines. No utility coordination has occurred and would begin later in the process. However, these issues are looked as part of the cumulative impact analysis. Sight distance and safe turning radii will be evaluated for all intersections. Additionally, safety comments for the intersection of Arroyo Ranch Road and RM 150 have been shared with Hays County and TxDOT staff for evaluation. The purpose of this proposed project is to relieve congestion and improve safety on the existing RM 150 facility from west of Kyle to I-35 and to provide additional links in the transportation network in this growing Central Texas region. Improvements to Center Street to add capacity would have significant negative impacts to property owners and businesses and the character of the area. Yarrington Road was identified as a better option due to the existing overpass at the Union Pacific Railroad and the direct connection to I-35.
7	JoAnn Villasana	8/2/2018	Comment Card	I do not approve of new highway running through downtown Kyle + approve of current recommendations.	Support recommendations	Your preference has been noted and public input will continue to be an important part of this project

8	[Not provided]	8/2/2018	Comment Card	A - Option A1 is best to leave space between Arroyo Ranch & gasline easement. A - stop light at A1 & FM150 intersection B - To meet objective for traffic to bypass Kyle, are there plans to connect the bypass to Stagecoach, to have traffic feed into 2770? If not, shorter to go through town	Preference for A1 with signal Connection to Old Stagecoach	Your preference has been noted and public input will continue to be an important part of this project. The existing connection of Old Stagecoach Road and RM 2770 would remain in place. In the previous study, the Kohlers Crossing connection was not preferred due to the proximity and impact to the schools and the lack of an overpass at UPRR and I-35. In addition, the City of Kyle Transportation Master Plan identifies a loop that would help serve traffic at RM 2770 looking for a connection to I-35 near Kohlers Crossing.
9	Larry Kruzic	8/2/2018	Comment Card	I can live with any of the three proposed (D1, D2, D3) right of ways that is located near Roland Lane. I am the owner of Texas Old Town. If the right of way is on my East Boundary, it will be okay. If it is further East that will be fine also. If you could stay away from Wild Cat Hollow as much as possible I think that would be appreciated by the people who live in that subdivision. I think D2 is the one I favor the most.	Preference for D2 Impacts to Wildcat Hollow	Your preference has been noted and public input will continue to be an important part of this project. The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and impacts to existing neighborhoods will be evaluated and considered.
10	Mary Jo Piazza Herrin	8/2/2018	Comment Card	I would not want to have the project too close to our neighborhood it is quiet and full of nature. The entrance into our neighborhood is dangerous as it is. We need the other developments to be aware of the existing wrecks that are documented at the entrance of Arroyo Ranch Rd & RM 150. I have noted on the map proposed and would like to add please watch for the other developments in future to not all dump in same area. Also do not want City of Kyle to annex us. We would be taxed out of our homes. I live in Arroyo Ranch. We do not want the Corridor further from A1 more west down FM 150. The hill is a blind problem getting out and entering Arroyo Ranch Road. I live on Campo De Oro.	Impacts to Arroyo Ranch Growth and annexation Arroyo Ranch safety concerns	The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and impacts to existing neighborhoods are will be evaluated and considered. TxDOT and Hays County do not have the authority to control growth or developments. However, as part of this project, the team is coordinating with the City of Kyle to better understand future plans, and refer you to the City of Kyle on more information regarding annexation. Sight distance and safe turning radii will be evaluated for all intersections. Additionally, safety comments for the intersection of Arroyo Ranch Road and RM 150 have been shared with Hays County and TxDOT staff for evaluation.
11	Robert Canales	8/2/2018	Comment Card	I would prefer D4 - take Yarrington straight to Old Stagecoach Road then turn right. Stay off of Roland Lane. Old Stagecoach Road is bigger than Roland Lane & Roland Lane is scheduled to have 300 homes put in making it more congested taking Yarrington Rd straight to Old Stagecoach Road does not interfere with any existing homes as of today.	Preference for D4 (drawn on map by public)	Your preference has been noted and public input will continue to be an important part of this project. This study will include evaluating traffic on local roads and future development plans.
12	[Not provided]	8/2/2018	Comment Card	Bring Hays County Transportation Plan Map. Give context to what is planned, a larger area map of Kyle, Kyle Loop, etc.	Other area projects	The Hays County Transportation Plan will be available for review.
13	Rosalinda Zuniga	8/2/2018	Comment Card	Area D - prefer the D1 route. D3+D2 negatively affect existing houses! Prefer north of Wildcat Hollow!	Preference for D1 Opposition to D3, D2	Your preference has been noted and public input will continue to be an important part of this project.
14	Joe & Carol McElroy	8/2/2018	Comment Card	Please see comments on the back! D-3 would be our preferred corridor. We have a very high traffic pattern on our road. D-3 would hopefully ease the high speed & congestion on South Old Stagecoach Rd. We have been at 2195 South Old Stagecoach for 26 years & we are deeply concerned. Thank you.	Preference for D3 Old Stagecoach Road existing traffic	Your preference has been noted and public input will continue to be an important part of this project. This study will include evaluating traffic on local roads.
15	Ruben and Rachel Guerrero	8/2/2018	Email	We still do not see how this road is going to help a large number of residents in and around Kyle at the present time. It may help developments along this area in the future. With that said, after studying the maps you presented at the public meeting, it seems D2 would be our preference. The D1 route would definitely affect more of our neighbors in a negative way as traffic would increase significantly around established neighborhoods.	Purpose of the project Preference for D2 Opposition to D1	The purpose of the proposed project is to relieve congestion and improve safety along the existing RM 150 facility from west of Kyle to I-35 and to provide additional links in the transportation network in this growing Central Texas region. The improvements would provide another connection to I-35 with a UPRR overpass. This connection will help with congestion on Center Street as there is limited room for added capacity improvements through downtown Kyle. In addition, no-build is an alternative that is studied in this process. Your preference has been noted and public input will continue to be an important part of this project.
16	Reid B. McCoy	8/2/2018	Comment Card	Blanco River Investments, representing the McCoy-Remme family, appreciates the opportunity to comment on the proposed alignment. Four generations of our family have enjoyed our property in rural Hays County over the past 50 years. On this property we've built homes, celebrated marriages, mourned the loss of love ones, gathered for holidays, raised our livestock, fished and paddled the Blanco River, and hiked the beautiful vistas. Given the incredible growth in Hays County, we also recognize and embrace the need to improve this road to provide safe and efficient travel for our fellow citizens. We appreciate the project's focus on balancing the County's unique character with future improvement plans. We agree with the location of the proposed alignment through our property, and will continue to work with the project to help it succeed. We expect, as the project progresses, to be given the opportunity to provide input on the project design and look forward to continuing this work together.	Support recommendations Public input process	Your comment has been noted, including your support for the area notated as Corridor C on maps shared at the meeting. Public input will continue to be an important part of this project, and we will continue to update you and welcome additional input as this study continues.

17	Jubal Grubb	8/2/2018	Letter	<p>Thank you for the open house and opportunity for input. There is a section of the project that I would like to bring to your attention that has generated much concern for many residents in the Arroyo Ranch neighborhood, and most directly for me and my family.</p> <p>The intersection of RM 150 and Arroyo Ranch Road as shown in the included figure 1 seems to have become especially dangerous in the past several years. We have lived in the neighborhood for nearly 15 years and have observed an increase in near-miss incidents and actual collisions. This information is not anecdotal, and data records can be seen on the state's crash record information system (https://cris.dot.state.tx.us/public/Query/app/public/welcome). I have personally been in several near-miss incidents, and they happen from both the east and west bound traffic.</p> <p>The problems:</p> <p>East bound traffic on approach to the entrance of the Arroyo Ranch neighborhood is typically traveling above the speed limit. Sometimes they are not. Either way, they have a limited sight distance problem - as they travel east towards the entrance they are traveling uphill, and as they crest the hill they are presented with a short distance, approximately 750 feet, to the entrance of the neighborhood. Vehicles leaving the neighborhood, that turn right (eastbound), are very frequently overtaken and most often tailgated and harassed by east bound RM 150 traffic. Imagine if you will, I am waiting for an opportunity to turn onto RM 150. I look to the left (west) and I see no vehicle cresting the top of the nearby hill, so I turn out onto RM 150. All of a sudden I see in my rear view mirror that there is a vehicle that has crested the hill and is fast approaching. I do my best to accelerate but the vehicle behind me must slow down. What typically happens is that the vehicles come up on me very fast and either honk, flash their lights, shake their fists, do all of those things, and possibly even attempt to pass. If they pass and speed ahead then they are endangering the vehicle occupants that are coming out of or going into the other neighborhoods (Dove Hollow for example).</p> <p>West bound traffic on approach to the Arroyo Ranch neighborhood must slow down to turn into the neighborhood. It happens time and time again, so frequently that I have lost count that west bound traffic has nearly collided into my vehicle from behind. I have personally have had drivers wait until the last moment to slow down and have slammed on their brakes and slid nearly into me while I wait for east bound traffic cresting the hill to pass by. Vehicles have nearly collided into the back of my truck from behind either skidding to a stop, or have swerved off of the road (no shoulder) because they did not realize I was stopped with my turn signal indicating that I am waiting to turn. It is a special moment when that happens when I glance in my rear view mirror to look at my children in their baby car seats, and then realize that I have to floor the accelerator and dump the clutch to lurch forward to avoid near death. Often time people honk, shake their fists, and generally tail gate in that area. The Crash Record Information System shows data that indicate the intersection has become more dangerous over time.</p> <p>The problem is bad at the intersection at Arroyo Ranch, but not exclusive to that intersection. All of the neighborhood intersections east of Arroyo Ranch experience some version of these problems. Vehicles (people) coming from and going to Meadow Woods, Quail Meadows, Dove Hollow Estates, and every ranch in between Arroyo Ranch and Old Stagecoach Road/2270 experience this.</p> <p>Solution to consider: Please consider widening the roadway in the affected area that I have described. If possible, something similar to a three lane divided roadway, i.e., one lane in each direction with a center turn lane in appropriate areas, right turn lanes for vehicles entering, and acceleration/merge lanes for vehicles exiting.</p> <p>Additionally, the speed should be reduced significantly in the affected area. Reduced speed should begin well before and to the west of Arroyo Ranch and continue as reduced speed all of the way to Old Stagecoach Road/2270.</p> <p>Consider also that these problems are going to be compounded significantly when development begins and more houses are built on the north side of RM 150 right across the street from Arroyo Ranch neighborhood. There is an application to subdivide notice posted in the vicinity, and the master plan /concept shows several hundred houses planned in the next few years.</p> <p>For now, the sign on RM 150 (to the west of Arroyo Ranch) simply indicating that there is limited sight distance does absolutely nothing. If possible, rumble strips, flashing light intersection indicator, electronic radar speed indicator signage, or something is needed very soon.</p> <p>I would appreciate if you would consider these safety concerns, and incorporate some solutions into your planning and design.</p>	Arroyo Ranch safety concerns Development	<p>Your comment has been noted, and public input will continue to be an important part of this project.</p> <p>Sight distance and safe turning radii will be evaluated for all intersections. Additionally, safety comments (including your comments on limited sight distance, lower speed limits, and modifications of RM 150 to three lanes) for the intersection of Arroyo Ranch Road and RM 150 have been shared with Hays County and TxDOT staff for evaluation.</p> <p>The project team is coordinating with property owners and local agencies to understand existing conditions and structures and to minimize impacts where possible. The project team is coordinating with the City of Kyle to identify planned and future developments in the area.</p>
----	-------------	----------	--------	---	---	---

18	Judge Chuck Miller	8/3/2018	Email	Assuming the proposed plan still calls for a straightening of a curving portion of RR150 where it meets the eastern arm of Woods Loop near RR12, this calls for the east section of Woods Loop to be extended to meet 150 again. Currently Woods Loop's intersection with 150 is surrounded by little snippets of land owned by the county or state or city or who knows who. Please LANDSCAPE around the new intersection of Woods Loop and 150. No one else will own up to doing it, so we need the plan to account for preventing a very unsightly stretch of road. Thank you Chuck Miller and many neighbors, 300 Woods Loop, Driftwood, 78619. [Phone number redacted]	RM 150 Character Plan and Woods Loop intersection	This section of RM 150 at Woods Loop and RM 12 is part of the RM 150 Character Plan. While we appreciate your comment, it relates to an area that is outside the area off the RM 150 Alignment Study. The comment has been shared with the appropriate Hays County staff for follow up.
19	Duane Beals	8/4/2018	Email	If it MUST be built then I believe options B-1 and D-1 would be the easiest to travel and the least destructive of existing properties. I still fail to see the advantage of this route, given that nearly 90% of traffic on RM150 coming from the west through Kyle turns NORTH on IH35. With nothing in sight for the future to the south of Kyle that would change that, why build it here at all?	Preference for B1, D1 Need for project	Your preference has been noted and public input will continue to be an important part of this project. The connection to Yarrington Road was identified as a connection to I-35 as there is an existing overpass at the Union Pacific Railroad with a direct connection to I-35. This additional connection will serve existing and future traffic volumes as the area including Kyle and San Marcos is projected for high growth. Travel patterns will be evaluated as a part of this study.
20	Jim Williams	8/4/2018	Email	As a resident of Wildcat Hollow, we would absolutely prefer the D3 option, as far away from our backyards as possible. D3 appears to pass close to the Madeline Manor business and I expect they would welcome easy access to their property/business. The road noise from the other options would be unacceptable. Residents of Wildcat Hollow are united and prepared to litigate if necessary, if the other options are chosen (D1-D2).	Preference for D3 Opposition to D1, D2 Impacts to Wildcat Hollow	Your preference has been noted and public input will continue to be an important part of this project. The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and impacts to existing neighborhoods and noise impacts will be evaluated and considered.
21	Joyce Canales	8/5/2018	Email	After reviewing the alignment map to re-route RM 150, I suggest that instead of making the zig zag to cut thru to Roland Ln why not make a straight road (Yarrington Road) from I-35 to Stagecoach Road and make improvements to Stagecoach Road. This road improvement will benefit everyone traveling from the Blanco Vista area into the Kyle Market Center area. I hope that your committee will take my suggestion into consideration. Thank you.	Alternative alignment on Old Stagecoach Road	The initial alignment alternatives avoided Old Stagecoach Road as an expansion would have significant impacts to properties and other resources abutting the road. Your preference has been noted, and this alternative will be evaluated as a part of this process.
22	Joyce Canales	8/7/2018	Email	I do have a question about the map that was on display at the August 4th meeting. What does the large shaded green area indicate?	Corridor C	The green shaded area on the map represents Corridor C, the area that was previously identified as the preferred general area for the RM 150 realignment in 2015. For more information on that study: http://www.improve150.com/assets/fm-150-west-alignment-study-corridor-evaluation-report.pdf
23	Robert Kleeman	8/14/2018	Email	I fully support the construction of the proposed RM 150 if it follows the B2 segment. I oppose Segment B1 for the following reasons: Corridor C was selected after a lengthy process and a lot of public input. Segment B1 strays out of Corridor C and into Corridor D, a route previously rejected during the Corridor selection process. Segment B1 is longer and has a tight radius curve that is effectively a right angle turn. Such a curve is dangerous and would require a much lower speed limit. Segment B1 also straddles several property lines west of Cypress Road. Segment B1, as depicted, would be located in an area where there are significant steep slopes. All of these factors will make Segment B1 more expensive than Segment B2.	Preference for B2 Opposition to B1 Previous public input	Your preference has been noted and public input will continue to be an important part of this project. The preliminary alignments that are outside of Corridor C were drawn by property owners for consideration. The Corridor C was previously identified as the general preferred area. The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and considerations such as property impacts, existing features (such as hills and terrain), and roadway constructability (such as curve radii) will be evaluated and considered.
24	Beth Smith	8/15/2018	Email	Just a couple of observations. It is dangerously close to the Arroyo Ranch Subdivision Blind Curve Entrance. Not quite clear on what entities will be maintaining the road, or paying for it to be constructed. Thank you	Arroyo Ranch safety concerns Funding and maintenance	Sight distance and safe turning radii will be evaluated for all intersections. Additionally, safety comments for the intersection of Arroyo Ranch Road and RM 150 have been shared with Hays County and TxDOT staff for evaluation. Funding for construction has not been identified at this point as we are working to identify the alignment or solution for the project. Once that is complete funding can come from many sources (state, federal, and local partnerships). TxDOT, Hays County, and the City of Kyle will coordinate on ownership and maintenance of RM 150, Center Street, and any new alignment once it is identified.
25	William Atkinson	8/15/2018	Email	The City of Kyle has a development with the Driskell property that does not include the proposed alignment. It is already going through the platting process. The property's eastern edge is the Union Pacific Rail Road. The North and South boundaries are Opal and Roland lane. There is a City of Kyle water tower in the middle. I marked the site location on one of the maps at the Wallace Middle School meeting.	Development	The project team is coordinating with property owners and local agencies to understand existing conditions and structures and to minimize impacts where possible. The project team is coordinating with the City of Kyle to identify planned and future developments and will research the noted Driskill Property.
26	David Beseda	8/16/2018	Email	I would prefer to see the existing FM 150 upgraded. What are the plans for this roadway if the proposed new roadway goes in?	Existing RM 150 Alignment Alternative	Your preference has been noted and public input will continue to be an important part of this project. Upgrading the existing RM 150 was evaluated in the previous study. It was not the preferred alternative due to significant negative impacts to properties along RM 150 and through the City of Kyle, and there is not an overpass at the Union Pacific Rail Road. TxDOT, Hays County, and the City of Kyle would coordinate on ownership and maintenance of the existing RM 150 and any new alignments after a plan has been developed. The existing RM 150 would continue to serve local traffic.

27	Lana Nance	8/16/2018	Email	We are very proud and happy to be a part of the FM 150 project. The goals and objectives appear to be carefully thought out and adjusted to fit changing circumstances. We feel confident that as the process continues we can look forward to the continued efforts of our representatives to make the best decisions for our county and its citizens. We were very satisfied with the decision to select Corridor C (Exhibit B2) as we believe the County was correct in selecting that location as the best one fitting the desired plan. That corridor for the most part is fairly straight, flat, and avoids deep drain ways that are closer to the Blanco River. We are not in favor of Alignment B1 as we believe it would cause the Blanco River more road contaminant runoff if FM 150 were to be placed further west and out of the original Corridor C. Also a more circuitous route (as shown in Alignment B1) would certainly be more expensive for the Hays County and TxDot and therefore less cost effective for the citizens of Hays County. Therefore we are against Alignment B1	Support for Corridor C Preference for B2 Opposition to B1	Your preference has been noted and public input will continue to be an important part of this project. The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS), and part of the process includes analyzing impacts to environmental features, such as surrounding bodies of water.
28	Scott Nance	8/16/2018	Email	We realize that Hays County is obviously experiencing significant growth which is resulting in urban sprawl with massive apartment complexes and closely adjoining houses and duplexes. Our families and neighbors are still farming and raising livestock. Considering the amount of acreage involved, this use of the land will continue for many years as a careful plan of development spaced out to meet the changing pace of real estate needs in the future. Owners must plan carefully to ensure AG exemptions are kept as the above process develops over the next 20-40 years. Wildlife appears to have taken a shot as rabbits, skunks, and armadillos are seldom seen. Fire ants are everywhere. We still are raising cattle but no more sheep or goats (coyotes and wild dogs). We have moved cattle on foot and with 20' cattle trailers from one side of the river to the other side. It will take careful planning of both Cypress Road and FM150 to allow the movement especially of cattle in the trailer as the truck and trailer is roughly 45' long. With this in mind, care should be taken to allow adequate width, road design (no divided roads at cross roads, or roundabouts, wide shoulders to allow for emergency pull-offs, etc.) In order for cattle and game move to water, feeding stations and pastures, underground passages will be necessary to allow a safer and more efficient way to accomplish the management of moving animals and keeping wild game off the roadway. For the reasons outlined above, we believe Alignment B2 is the best alignment for the county and the citizens of the county. We believe Alignment B1 would not be a good choice because (1) it is much closer to the Blanco River and thus cause more road runoff and be more apt to flood when drain ways back up during heavy flooding on the Blanco, (2) would be cost prohibitive due to its need for large bridges over drain ways and (3) also cost more money to build because it has a much longer route than the preferred Alignment B2.	Impacts to ranching business Impacts to wildlife Road accommodations for ranching and livestock Preference for B2	Various planning studies, including analysis of roadway use patterns, will take place as a part of the environmental process to help the team understand how to best serve the needs of the traveling public, while minimizing impacts to the adjacent properties and land uses. These uses and patterns are taken into consideration as the roadway is designed. The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS), and part of the process includes analyzing environmental features, such as impacts to animal habitats. Your preference has been noted and public input will continue to be an important part of this project.
29	Albert Cortez	8/17/2018	Email	To Whom It May Concern: As the Project Manager, I am representing Blanco River Ranch Properties, LP's (BRRP) comments on the RM150 Alignment Project. BRRP supports the RM 150 Alignment Project with B1 as the alignment that is best route for us. As depicted in the attached Rm 150 Map, I am providing comments on the Rm150 Alignment Section B1. BRRP supports the RM 150 B1 for the following reasons: 1. B1 will have the least construction impact on the Land versus B2 2. B1 will maintain the Hill Country look and feel versus a straight highway as in B2 3. B1 follows land plans 4. B1 will be the less expensive route to design and build than B2 If you any question, please contact me Best Regards, Albert Cortez Project Manager - BRRP	Preference for B1	Your preference has been noted and public input will continue to be an important part of this project.
30	David Autry	8/17/2018	Email	Visited your open house in Kyle 8-2=18 [sic]. Looks like a great plan for improvements to 150. I live in the area - something is surely needed. This plan looks a winner. Totally disagree with a vocal few who say this is for developers. Development is all ready here and will continue regardless of the roads.	Support for project Development impacts	Your comment has been noted and public input will continue to be an important part of this project.

31	Lila Knight	8/17/2018	Email	<p>To Whom it May Concern:</p> <p>The following are my formal comments on the public open house I attended August 2nd in Kyle Texas.</p> <p>As part of the project's purpose and need, it is stated that the realignment is "to provide additional links in the transportation network in a growing Central Texas Region." But according to the overwhelming response by the public at all of your previous open houses and meetings, no one wants this road. No one drives from San Marcos or Kyle to Dripping Springs or Wimberley on a daily basis (there is actually more traffic west of Buda for a few miles on 967). We drive to Austin or San Antonio. This is a developer-generated road.</p> <p>Since it is development just to the west of Kyle that is pushing the need to realign 150 at this time, it is important that the road realignment remain on their property. The realignment should not encroach on the private property of individuals who are adamantly against the unnecessary realignment of this road. And this road should avoid the Blanco River and environmentally sensitive areas at all cost.</p> <p>I am concerned about the environmental impacts of this new realignment. For years, the comprehensive plans of the cities of San Marcos, Kyle and Buda have tried to steer new growth to the areas east of I35 as the preferred scenario due to the availability of existing infrastructure. More importantly, the prairie to the east of I35 is not within the environmentally sensitive areas of the Edwards Recharge and Transition Zones. This realignment of 150 does just the opposite and will encourage new growth along the Blanco River and farther into the Hill Country. What responsibility is TxDOT willing to assume for future flooding of the Blanco River and the resulting destruction of property and perhaps even deaths?</p> <p>In addition, there is very little infrastructure available in this area for future growth, particularly water. How will this be addressed or is the plan just to drain the Trinity Aquifer and pollute the Blanco River and its tributaries? Or, perhaps, there is no plan at all for accommodating the growth that will result from the construction of this road.E30</p> <p>The City of Kyle has signed a development agreement with the Nance-Bradshaw Ranch to construct a bridge across the Blanco River to access their development at an estimated cost of \$30 million. The citizens of Kyle and San Marcos (and Martindale) oppose this bridge, although the City of Kyle has never bothered to hold transparent, public hearings on the subject. Many people believe this realignment project will encourage or directly lead to the construction of this bridge, which will impact our downstream cities with increased flooding. Could you address this issue in the future?</p> <p>I'm concerned about which route large trucks and 18-wheelers will take in the future. Will they take the new realignment with its curved roads and longer distance through neighborhoods? Or will this large truck traffic continue through the center of Kyle? Are there any plans to prohibit trucks from driving through downtown Kyle in the future?</p> <p>If RM 150 is "realigned," what happens to the existing segments of 150 through Kyle? Will the stretch of 150 (currently known locally as Rebel Drive and Center Street) become a local road, requiring local funds for maintenance and repairs? What about the segment of the existing 150 east of I35 to SH 21? This is a major connector to a state highway and the taxpayers of Kyle contributed a significant portion to the "realignment" of 150 at the intersection of I35 just a few years ago (along with major improvements to the overpass). Was that a total waste of our tax dollars? I asked these questions at the Open House of numerous people and no one knew the answer. At what point will this be decided so the City of Kyle can plan to include this in future budgets, if necessary?</p> <p>What will be the economic impacts on downtown Kyle if 150 is taken off-system and becomes a local road with no signage from I35? Since the ramps off I35 have already been changed to discourage traffic to downtown Kyle, has the decision already been made to promote the "Uptown Kyle" development in Plum Creek and the proposed developments at the Yarrington intersection?</p> <p>By the way, your section on "Agency Scoping" on page 4 of the report, posted to the website just before the meeting, was left entirely blank. I look forward to reading it.</p> <p>For the record, I prefer the "No Build" alternative.</p> <p>I look forward to reading your EIS.</p>	<p>Private property rights Environmental concerns Preference for no build Managing growth and development Maintenance and ownership</p>	<p>The purpose of the proposed project is to relieve congestion and improve safety along the existing RM 150 facility from west of Kyle to I-35 and to provide additional links in the transportation network in this growing Central Texas region. This project is intended to serve existing traffic and future traffic as population projections indicate significant growth in the near future. The project will also provide an additional connection to I-35 with an overpass at the Union Pacific Railroad. Previous improvements are and will continue to be an important part of the this project and the transportation network in the area.</p> <p>The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and impacts to personal property, environmental features, including the Edwards Aquifer, water quality, floodplains, and indirect and cumulative impacts will be evaluated and considered. In addition, no-build is an alternative that is studied in this process. This study will evaluate topography and drainage to identify the needed drainage treatments. There are regulations and requirements in place that ensure the roadway would not negatively impact drainage. This NEPA study is for a roadway facility and does not include planning for water or pipelines. However, these issues are looked as part of the cumulative impact analysis.</p> <p>A bridge across the Blanco River is outside the scope of this project and no connections are being planned to a bridge as a part of this study.</p> <p>This new alignment is not intended as a truck route and there are no plans to limit truck traffic in downtown Kyle. The project team is coordinating with the City of Kyle to identify developments and consider future plans and efforts. TxDOT and Hays County have limited control of growth and developments but will continue to coordinate with the City and property owners to identify future plans.</p> <p>TxDOT, Hays County, and the City of Kyle would coordinate on ownership and maintenance of the existing RM 150 and any new alignments after a plan has been developed. Different entities can maintain portions of roads, so if the City maintained a section of the existing RM 150, it does not mean they would be required to control the full RM 150.</p> <p>The project team will contact you to identify the blank pages on the website and promptly update, if something is missing.</p> <p>Your preference has been noted and public input will continue to be an important part of this project.</p>
----	-------------	-----------	-------	--	---	--

32	Tim Miller	8/6/2018	Mail	D1 route: We have a development agreement with City of Kyle which as we know doesn't protect us from being bought out by a developer. If this route is selected the City of Kyle & Hays County must further protect us with a Farmland Preservation (some conservancy group, your choice) making sure we will not sell out years later or if another road plan is put in place, basically buying out our development rights. You need to read what was given to Justin Bates National Parks Service Austin Office as that documented further deals with different options. Creating a large park by adding properties and Kyle log cabin moved to our land makes a southern route more feasible. D1 route taken, with our Farmland Preservation by Hays County & City of Kyle of Millberg Farm would be a wonderful opportunity to supply and increase the number of residents with Certified Organic Produce. https://wef.ch/2H/Nm creating an Agritopia/Agrihood a few of many new terms that could be enhanced/designed by the great planning dept of Texas State why they haven't even approached me is a mystery - or have been busy planning our property for something else. As you know I have to defend on several fronts being certified organic prevents your rounds - Opal in front as a 4 lane commuter, so you will need to do baseline testing of our farm in multiple locations. 2) Future developments nearby 3) Amazon and their networks (value) as others are following the deluge on Facebook with Texas Land Conservancy with value ethics speech to c. council. Nothing will be signed, sold until Amazon makes their decision on the McCoy land which needs the highway significantly increases our value. Juanita Parsons barn is mine to [illegible] off negotiations with exit strategy. D1: So nice to hear comments from citizens that the highway will not effect [sic] them at the meeting! Just think of all my hours of research, collection, pain & suffering and especially significant my wasted time of 350 hours wasted that could have improved more of the additional 12 acres next to our farm that is also certified organic. Not sure why you don't or won't list properties effected [sic] with landowners names on the route.	Farmland preservation Organic farm Amazon Opposition to D1 Millberg Farm	The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and impacts to businesses, personal property, farming, and community resources will be evaluated and considered. This comprehensive study includes identifying and understanding future City/State/County transportation and development plans. The project team will coordinate with the City of Kyle and the National Park Service to better understand their future plans for the area. All property owner records are public information through the Hays County Appraisal District. This information was not included on the maps as it would make the maps illegible due to the large scale of the map. Your preferences have been noted and public input will continue to be an important part of this project.
33	Odis Loosier	8/10/2018	Mail	From the families at Wildcat Hollow Village: We came here years ago because it was a quiet place to live. We want it to stay that way. All of us on Wildcat Hollow think that the D-2 plan would be best for us. We want the road to be the farthest away from us as possible and D-2 would be the one farthest away from Wildcat Hollow. Thanks, Odis Loosier	Impacts to Wildcat Hollow Preference for D2	The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and impacts to neighborhoods and personal property will be evaluated and considered. Your preference has been noted and public input will continue to be an important part of this project.
34	Michael Wood	8/15/2018	Mail	I really don't see the necessity for this project at all. Many questions still can not be answered. For example; How many feet of either side of the road will be condemned as required? It does not appear to negatively impact out Blanco Vista neighborhood but will adversely affect Wildcat Hollow Drive neighborhood. If I had a note on this I would put it off another ten years at least. Plus change the route at Wildcat Hollow further to the North (over). The information session was well organized and professionally presented. Compliments to the CD&P Department. Now to change suggested: more away from Wildcat Hollow (see map). Link at Yarrington Rd. is ok.	Opposition to project ROW needed Impacts to Wildcat Hollow Public involvement process	The purpose of the proposed project is to relieve congestion and improve safety along the existing RM 150 facility from west of Kyle to I-35 and to provide additional links in the transportation network in this growing Central Texas region. To construct this type of road, a minimum of 150 feet of right of way would be needed. Through this process, the amount of right of way and roadway configuration would be refined. The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and impacts to neighborhoods and personal property will be evaluated and considered. In addition, no-build is an alternative that is studied in this process. Public involvement is an important part of this process and the project team appreciates all information shared.

citizens as we build this road," he said.

he Tenorio and Danton Fogley were absent.

Plum Creek Golf: Quail Creek closed

Continued from pg. 4

Hays High golf coach Danny Preuss, who has coached in the district for about 25 years, said he has fond memories of the course.

"I'm sad to hear Quail Creek is closing. That used to be the only golf course we had, and we used to bus kids over there

for practice," Preuss said. But Quail Creek closing its doors is not a signal that the sport is less popular these days, he said.

"I don't think the popularity of golf in the area is declining," he said. "I have more and more golfers coming in every year."

Overall, golf is still up

and coming in this area, he said. As long as a new course opens, there will be plenty of room for golfers in Hays County.

"With the new course in San Marcos, the one in Plum Creek and the ones in Austin we have access to, golf is doing well," Preuss said.

New Principals

Continued from pg. 5

Meanwhile, district leaders also approved the hiring of Charli Lennon as the next principal of Simon Middle School in Kyle. Lennon will take over for Jose Puga, who led SMS for the past three years.

Lennon hails from the Austin area and was most

recently an assistant principal at Klein Cain High in the Houston area.

According to a letter to parents, Lennon's background extends to a speech and debate director and a communications application teacher.

Eric Wright, Hays CISD

superintendent, said in the letter Lennon will be "a great fit for SMS and that she will implement systems that will lead to student achievement."

"I'm looking forward to creating a culture where everyone knows all students can learn," Lennon said.

OPEN HOUSE

In 2014, Hays County began studying RM 150 to identify the alignment from just west of Kyle to near I-35. Since the last public meeting in 2015, the County and TxDOT have been coordinating to identify roles, responsibilities, and funding for the continuation of the environmental study. Please attend an open house to get an update on the project, visit with the team, and share your input.

Thursday, August 2
4-7 p.m.

Wallace Middle School, Cafeteria
 1302 W. Center Street
 Kyle, TX 78640

Attend at your convenience, as this is an open house with no presentation.

RECEPCIÓN

En 2014, el Condado de Hays empezó estudiando RM 150 para identificar la alineación del justo oeste de Kyle a cerca de I-35. Desde la última reunión pública en 2015, el Condado y el Departamento de Transporte de Texas (TxDOT) han sido coordinando para identificar papeles, responsabilidades, y fundación para la continuación del estudio ambiental. Por favor asista a una recepción abierta para recibir una actualización sobre el proyecto, hablar con el equipo del proyecto, y compartir sus aportaciones.

Jueves, el 2 de agosto
4-7 p.m.

Wallace Middle School, Cafetería
1302 W. Center Street
Kyle, TX 78640

Asista a su conveniencia, porque esta reunión es del formato "casa abierta" sin una presentación formal.

La revisión ambiental, consultas y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto están siendo o han sido, llevado a cabo por TxDOT - en virtud de 23 USC 327 y un Memorando de Entendimiento fechado el 16 de diciembre del 2014, y ejecutado por la FHWA y el TxDOT.

Postcard

Mailed to 5,664 property owners and elected officials on July 16, 2018

Hays County and TxDOT are holding an open house to share updates and get public input on alignment alternatives for the RM 150 Alignment project.

The purpose of the proposed project is to relieve congestion and improve safety along the existing RM 150 roadway from west of Kyle to I-35 and to provide additional connections to the transportation network in this rapidly expanding area of Central Texas.

OPEN HOUSE

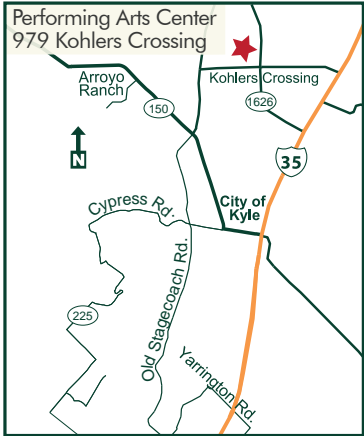

Thursday, Oct. 25, 4-7 p.m.
 Hays CISD Performing Arts Center
 979 Kohlers Crossing
 Kyle, TX 78640

Attend at your convenience, as this is an open house with no formal presentation.

Please share comments by Nov. 8, 2018 to be included in the official meeting documentation. Materials will be available online following the open house.

Sign up for project updates by visiting the website or sending an email.

Letter to Elected Officials

Distributed to 23 local and state officials on July 16, 2018

July 16, 2018

RM 150 Alignment Project
CSJs: 0016-17-013, 0805-04-028, 0805-04-027
Hays County
Public Meeting

<Salutation> <First Name> <Last Name>
<Title>
<Organization>
<Address>
<City>, <State> <Zip Code>

Dear <Title> <Last Name>:

Hays County, in cooperation with the Texas Department of Transportation, is working on the RM 150 alignment study from just west of Kyle to near I-35. The project would enhance safety and mobility through Hays County and relieve traffic in and around the city of Kyle by moving the state roadway out of downtown, as well as provide for local access and traffic in downtown. An open house is being held to discuss improvements, alignment location, and to receive public comments.

Thursday, August 02, 2018
from 4 p.m. to 7 p.m.
Wallace Middle School (cafeteria)
1302 W. Center Street, Kyle, TX 78640

In 2013, the Hays County Transportation Plan identified the need to improve RM 150 to a four-lane divided roadway, among other projects. In 2014, the County began studying this project and held three public meetings. The study began with a large area and was narrowed down to a much smaller corridor. Since the last public meeting in 2015, the County and TxDOT have been coordinating to identify roles, responsibilities, and funding for the continuation of the environmental study.

You and your staff are cordially invited to attend this open house. A copy of the public meeting flyer is attached. Please consider sharing this information with staff and interested constituents.

If you would like additional information regarding the project, please reach out at any time:

www.improve150.com | info@improve150.com | 512-533-9100

Sincerely,

Hays County
Commissioner Mark Jones, Precinct 2
Commissioner Ray Whisenant, Precinct 4

TxDOT
Jon Geiselbrecht
Project Manager

TxDOT AND HAYS COUNTY TO HOST OPEN HOUSE FOR RM 150 ALIGNMENT PROJECT

[Share This](#)

[Tweet This](#)

Aug. 1, 2018

AUSTIN –An environmental impact study for the potential alignment of RM 150 from just west of Kyle to near I-35 will be the topic of discussion at an upcoming open house hosted by the Texas Department of Transportation on Thursday, Aug. 2 from 4 - 7 p.m. The meeting will take place at Wallace Middle School Cafeteria, 1302 W. Center Street, Kyle, Texas 78640.

The purpose of the proposed project is to enhance safety and mobility through Hays County, while relieving traffic in and around the city of Kyle by potentially moving the state roadway out of downtown, and providing an additional connection to I-35.

As Hays County, Kyle, and Buda continue to grow at a pace exceeding most Central Texas growth rates, RM 150 will bear a greater burden of increased traffic, resulting in worsened congestion under existing roadway design conditions. In addition, congestion is exacerbated by the presence of an at-grade rail crossing of the Union Pacific rail line at RM 150 (locally referred to as Center Street) in downtown Kyle.

In 2014, Hays County began studying RM 150 to identify the alignment from just west of Kyle to near I-35. Since the last public meeting in 2015, the County and TxDOT have been coordinating to identify roles, responsibilities, and funding for the continuation of the environmental study. Now, the project team is ready to meet with the community to share more information about potential alignments and gather public feedback.

The open house will provide citizens the opportunity to review and comment on potential alignments for RM 150. Displays will be available for review and staff will be present to answer questions. No formal presentation will be given and attendees are invited to come and go at their convenience.

Comments will be accepted through Aug. 17, 2018 and can be submitted at the open house, online at www.improve150.com, by email at info@improve150.com or by mail at RM 150 Alignment, P.O. Box 5459, Austin, Texas 78763. For more information on the project, view www.improve150.com.

For media inquiries, contact Bradley.Wheelis@txdot.gov or (512) 832-7060.

###

The Texas Department of Transportation is responsible for maintaining 80,000 miles of road and for supporting aviation, rail, and public transportation across the state. Through collaboration and leadership, we deliver a safe, reliable, and integrated transportation system that enables the movement of people and goods. Find out more at txdot.gov. WELCOME TO IMPROVE150!

This site is dedicated to transportation projects and initiatives on Ranch-to-Market 150 in Hays County.

RM 150 is currently a two-lane roadway that extends from RM 12 in Dripping Springs through Kyle to I-35 and beyond. It is one of three primary routes that runs east/west through Hays County and supports movements through the County to and from the I-35 corridor.

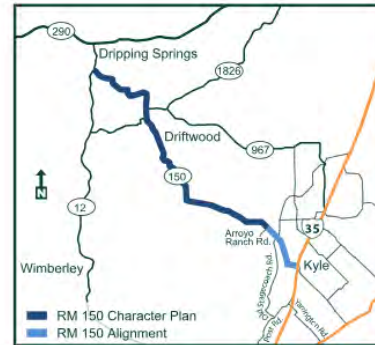

Hays County recognizes and appreciates the beautiful scenery of this area and understands the need to balance this unique character with any future improvement plans. It is the County's responsibility to provide reliable and safe transportation options and to accommodate current and future traffic and growth. By planning ahead, the County can coordinate and work together with property owners, businesses, and the community while planning for the future.

RM 150 Alignment Project Open House

Thursday, Aug. 2, 4-7 p.m.

Wallace Middle School Cafeteria
1302 W. Center Street, Kyle, TX 78640

COMMUNITY ENGAGEMENT

Community participation is an integral and fundamental part of the transportation planning process. Hays County will provide meaningful opportunities for engagement and facilitate a collaborative process to share information and collect input.

We are committed to working closely with you throughout this project and are happy to meet with anyone interested in learning more. There will be many opportunities to get involved as this process continues.

When:	Thursday, Aug. 2, 2018 4 p.m. - 7 p.m.
Purpose:	The purpose of the open house is to discuss the RM 150 alignment study from just west of Kyle to near I-35. The meeting will be held in an open house format with no formal presentation, so the public may come and go at their convenience. Staff will be available to answer questions. Comments must be received on or before Friday, Aug. 17, 2018, to be a part of the official record.
Description:	The purpose of the proposed project is to enhance safety and mobility through Hays County, relieve traffic in and around the city of Kyle by moving the state roadway out of downtown, and to provide an additional connection to I-35. As Hays County, Kyle, and Buda continue to grow at a pace exceeding most Central Texas growth rates, RM 150 will bear a greater burden of increased traffic, resulting in worsened congestion under existing roadway design conditions. In addition, congestion is exacerbated by the presence of an at-grade rail crossing of the Union Pacific rail line at RM 150 (locally referred to as Center Street) in downtown Kyle. For more information, view www.improve150.com .
Special Accommodations:	TxDOT makes every reasonable effort to accommodate the needs of the public. The open house will be in English. If you have a special communication accommodation or need for an interpreter, a request can be made. If you have a disability and need assistance, special arrangements can also be made to accommodate most needs. Please call 512-832-7218 at least three working days prior to the meeting. Please be aware that advance notice is requested as some accommodations may require time for TxDOT to arrange.
Memorandum of Understanding:	The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

Subject: FW: RM 150 Public Open House Meeting

[View this email in your browser](#)

Don't forget! Hays County and TxDOT are holding an open house this Thursday to share updates on the RM 150 Alignment Project.

Please attend to visit with the team and share your input. Community input is an important part of this process and the team is committed to a project that enhances safety and mobility throughout Hays County.

OPEN HOUSE

Thursday, Aug. 2

4-7 p.m.

Wallace Middle School, Cafeteria
1302 W. Center Street
Kyle, TX 78640

Attend at your convenience, as this
is an open house with no
presentation.

While comments are always accepted, they must be submitted on or before
Friday, August 17, 2018 to be a part of the official record.

The open house will be held in English and ASL translators will be available. If you are interested in attending and have special communication and/or accommodation needs, please call (512) 832-7218 at least three (3) business days prior to the open house. Every reasonable effort will be made to accommodate these needs.

We will continue to share updates via email and through the website.
Please reach out at any time with questions.

If you wish to no longer receive updates, please unsubscribe below.

Website: www.improve150.com Email: info@improve150.com Phone: 512-533-9100

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

OFFICIAL COMMENTS (Please Print): Do you have any general comments on the project?

we are Concerned about County road tax. what is the percentage Breakdown increase on taxes for individual household.

Since this is proposing to be planned next to a school, Is the southern connection being connected to ~~Opal~~ Service lane via Opal or is it going to angle towards the Yarrington road bridge -

Is there going to be modification to current Yarrington Bridge to facilitate a fly over connection to IH 35 North and South.

NOT D-2!
 D-3 → After discussion w/ some city officials, it is my understanding that the property owners on each side of S. Old Stagecoach Rd do not care if the road goes through their properties. I am in D-2 and, obviously, I object to it going through my fairly recently acquired property which is my home & business. We are surrounded by oaks, some Heritage Oaks. Call me if you would like to discuss. Anna Boling

OFFICIAL COMMENTS (Please Print): Do you have any general comments on the project?

I've been to these meetings before, and it was clear to me at the first one that corridor C was already chosen. The reports were printed with that option as the featured one. The other corridors were listed merely for show. What we, the residents, want does not matter, as someone has already decided who will benefit from the building of a ~~new~~ road that bypasses Kyle. Why are certain areas already protected from having a road go through them? I wish you people would stop assuming we are too ignorant to see what is happening here. Printing out one map that shows only one option makes it clear what we say is irrelevant. If you were truly to show options, you would have planned this road to be the shortest, cheapest route to I 35: that is to go through Kohler's crossing - an existing wide road. But I guess that would make it harder to hide the water line going →

I can live with any of the three proposed (D1, D2, D3) right of ways that is located near Roland Lane. I am the owner of Texas Old Town, if the right of way is ~~on~~ on my East Boundary it will be okay. If it is further East that will be fine also. If you could stay away from Wild Cat Hollow ~~as~~ as much as possible I think that would be appreciated by the people who live in that subdivision. I think D2 is the one I favor the most.

I would not want to have the project too close to our neighborhood it is quiet and full of nature. The entrance into our neighborhood is dangerous as it is. We need the other developments to be aware of the existing wrecks that are documented at the entrance of Arroyo RanchRD + FM 150. I have noted on the map proposal and would like to add please watch for the other developments in future to not all dump in same area. Also do not want City of Kyle to annex us, we would be taxed out of our homes.

I would prefer D4 - take Yarrington straight to Old Stage Coach Road then turn right. Stay OFF OF Roland Lane. Old Stage Coach Road is bigger than Roland Lane & Roland Lane is scheduled to have 300 homes put in making it more congested. taking Yarrington Rd. straight to Old Stage Coach Road does not interfere with any existing homes as of today.

OFFICIAL COMMENTS (Please Print): Do you have comments on the initial alignment options?

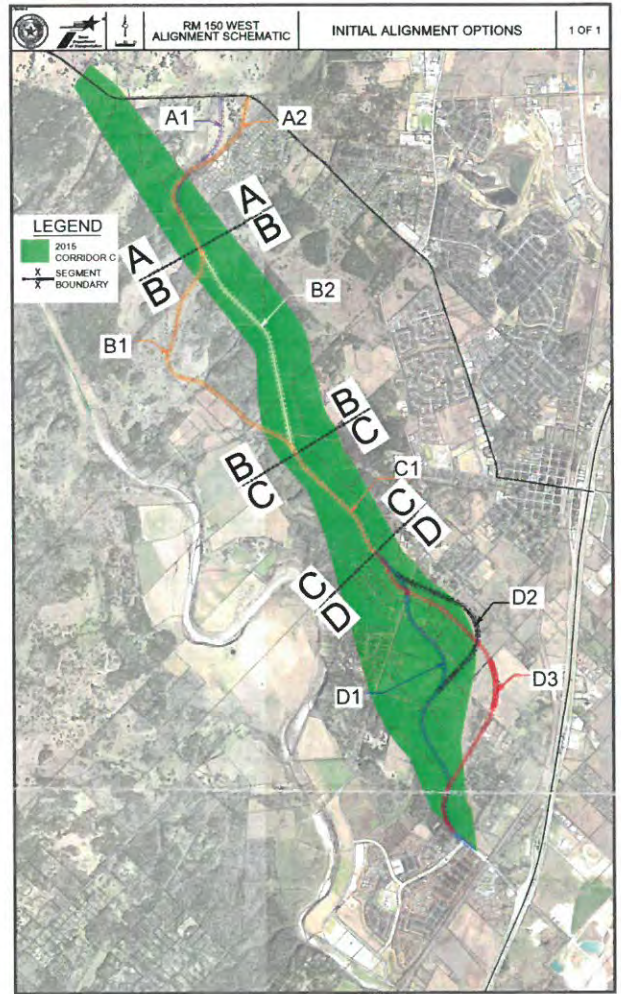

Please indicate alignment area A, B, C, or D for location specific comments.

Area D

Prefer the D1 route

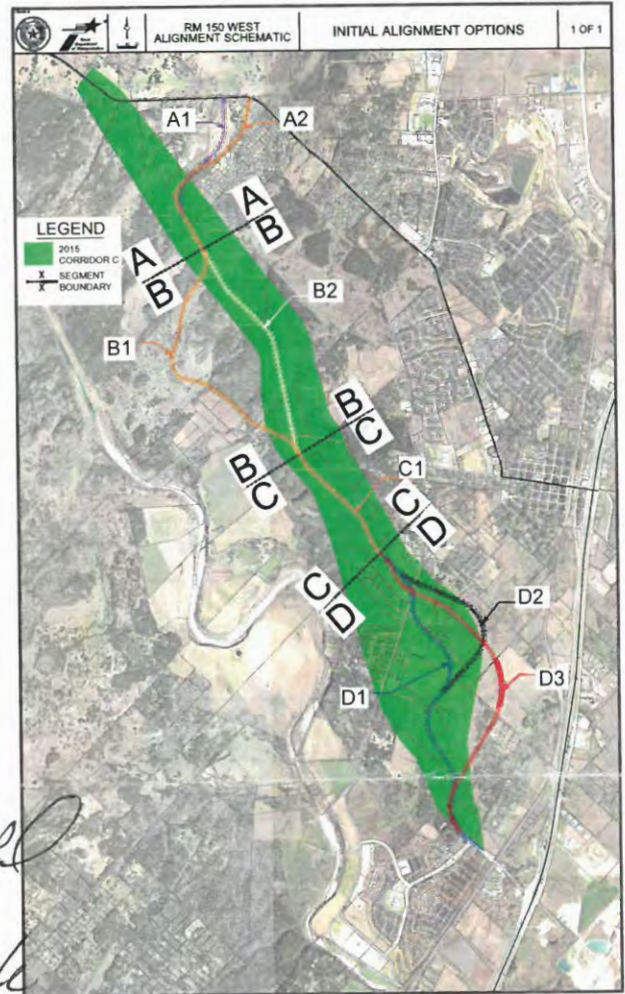

D3 + D2 negatively affect existing houses!

Prefer north of Wildcat Hollow?

OFFICIAL COMMENTS (Please Print): Do you have comments on the initial alignment options?

Please indicate alignment area A, B, C, or D for location specific comments.

D-3 would be our preferred corridor

We have a very high traffic pattern on our road. D-3 would hopefully ease the high speed & congestion on south Old Stage road. We have been at 2195 South Old Stage road for 26 years & we are deeply concerned.

Thank you

Joe & Carol McEneaney 8/7/18

RM 150 Alignment Project

P.O. Box 5459

Austin, TX 78763

Dear RM 150 Alignment Project,

Blanco River Investments, representing the McCoy-Remme family, appreciates the opportunity to comment on the proposed alignment.

Four generations of our family have enjoyed our property in rural Hays County over the past 50 years. On this property we've built homes, celebrated marriages, mourned the loss of love ones, gathered for holidays, raised our livestock, fished and paddled the Blanco River, and hiked the beautiful vistas.

Given the incredible growth in Hays County, we also recognize and embrace the need to improve this road to provide safe and efficient travel for our fellow citizens. We appreciate the project's focus on balancing the County's unique character with future improvement plans.

We agree with the location of the proposed alignment through our property, and will continue to work with the project to help it succeed. We expect, as the project progresses, to be given the opportunity to provide input on the project design and look forward to continuing this work together.

Very respectfully,

Reid B. McCoy

Blanco River Investments, Ltd.

Public Involvement Team
RM 150 Alignment Project
PO Box 5459
Austin, TX 78763

To Whom It May Concern,

Thank you for the open house and opportunity for input. There is a section of the project that I would like to bring to your attention that has generated much concern for many residents in the Arroyo Ranch neighborhood, and most directly for me and my family.

The intersection of RM 150 and Arroyo Ranch Road as shown in the included figure 1 seems to have become especially dangerous in the past several years. We have lived in the neighborhood for nearly 15 years and have observed an increase in near-miss incidents and actual collisions. This information is not anecdotal, and data records can be seen on the state's crash record information system (<https://cris.dot.state.tx.us/public/Query/app/public/welcome>). I have personally been in several near-miss incidents, and they happen from both the east and west bound traffic.

The problems:

East bound traffic on approach to the entrance of the Arroyo Ranch neighborhood is typically traveling above the speed limit. Sometimes they are not. Either way, they have a limited sight distance problem – as they travel east towards the entrance they are traveling uphill, and as they crest the hill they are presented with a short distance, approximately 750 feet, to the entrance of the neighborhood. Vehicles leaving the neighborhood, that turn right (eastbound), are very frequently overtaken and most often tailgated and harassed by east bound RM 150 traffic. Imagine if you will, I am waiting for an opportunity to turn onto RM 150. I look to the left (west) and I see no vehicle cresting the top of the nearby hill, so I turn out onto RM 150. All of a sudden I see in my rear view mirror that there is a vehicle that has crested the hill and is fast approaching. I do my best to accelerate but the vehicle behind me must slow down. What typically happens is that the vehicles come up on me very fast and either honk, flash their lights, shake their fists, do all of those things, and possibly even attempt to pass. If they pass and speed ahead then they are endangering the vehicle occupants that are coming out of or going into the other neighborhoods (Dove Hollow for example).

West bound traffic on approach to the Arroyo Ranch neighborhood must slow down to turn into the neighborhood. It happens time and time again, so frequently that I have lost count that west bound traffic has nearly collided into my vehicle from behind. I have personally have had drivers wait until the last moment to slow down and have slammed on their brakes and slid nearly into me while I wait for

Jubal Grubb
171 Calle Largo, Kyle TX 78640

east bound traffic cresting the hill to pass by. Vehicles have nearly collided into the back of my truck from behind either skidding to a stop, or have swerved off of the road (no shoulder) because they did not realize I was stopped with my turn signal indicating that I am waiting to turn. It is a special moment when that happens when I glance in my rear view mirror to look at my children in their baby car seats, and then realize that I have to floor the accelerator and dump the clutch to lurch forward to avoid near death. Often time people honk, shake their fists, and generally tail gate in that area. The Crash Record Information System shows data that indicate the intersection has become more dangerous over time.

The problem is bad at the intersection at Arroyo Ranch, but not exclusive to that intersection. All of the neighborhood intersections east of Arroyo Ranch experience some version of these problems. Vehicles (people) coming from and going to Meadow Woods, Quail Meadows, Dove Hollow Estates, and every ranch in between Arroyo Ranch and Old Stagecoach Road/2270 experience this.

Solution to consider:

Please consider widening the roadway in the affected area that I have described. If possible, something similar to a three lane divided roadway, i.e., one lane in each direction with a center turn lane in appropriate areas, right turn lanes for vehicles entering, and acceleration/merge lanes for vehicles exiting.

Additionally, the speed should be reduced significantly in the affected area. Reduced speed should begin well before and to the west of Arroyo Ranch and continue as reduced speed all of the way to Old Stagecoach Road/2270.

Consider also that these problems are going to be compounded significantly when development begins and more houses are built on the north side of RM 150 right across the street from Arroyo Ranch neighborhood. There is an application to subdivide notice posted in the vicinity, and the master plan /concept shows several hundred houses planned in the next few years.

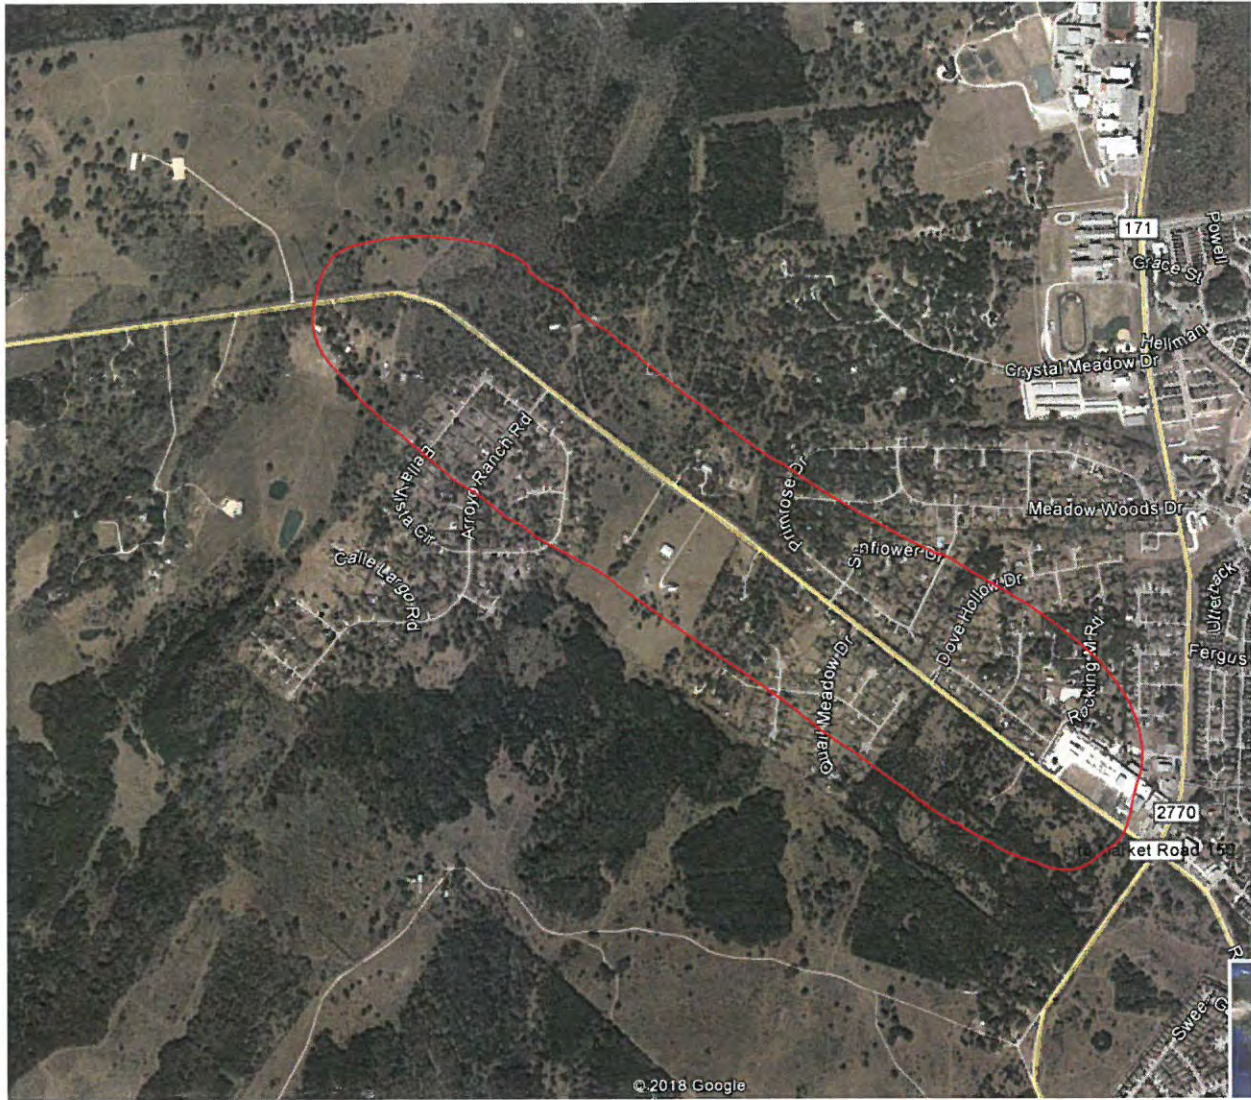

For now, the sign on RM 150 (to the west of Arroyo Ranch) simply indicating that there is limited sight distance does absolutely nothing. If possible, rumble strips, flashing light intersection indicator, electronic radar speed indicator signage, or something is needed very soon.

I would appreciate if you would consider these safety concerns, and incorporate some solutions into your planning and design.

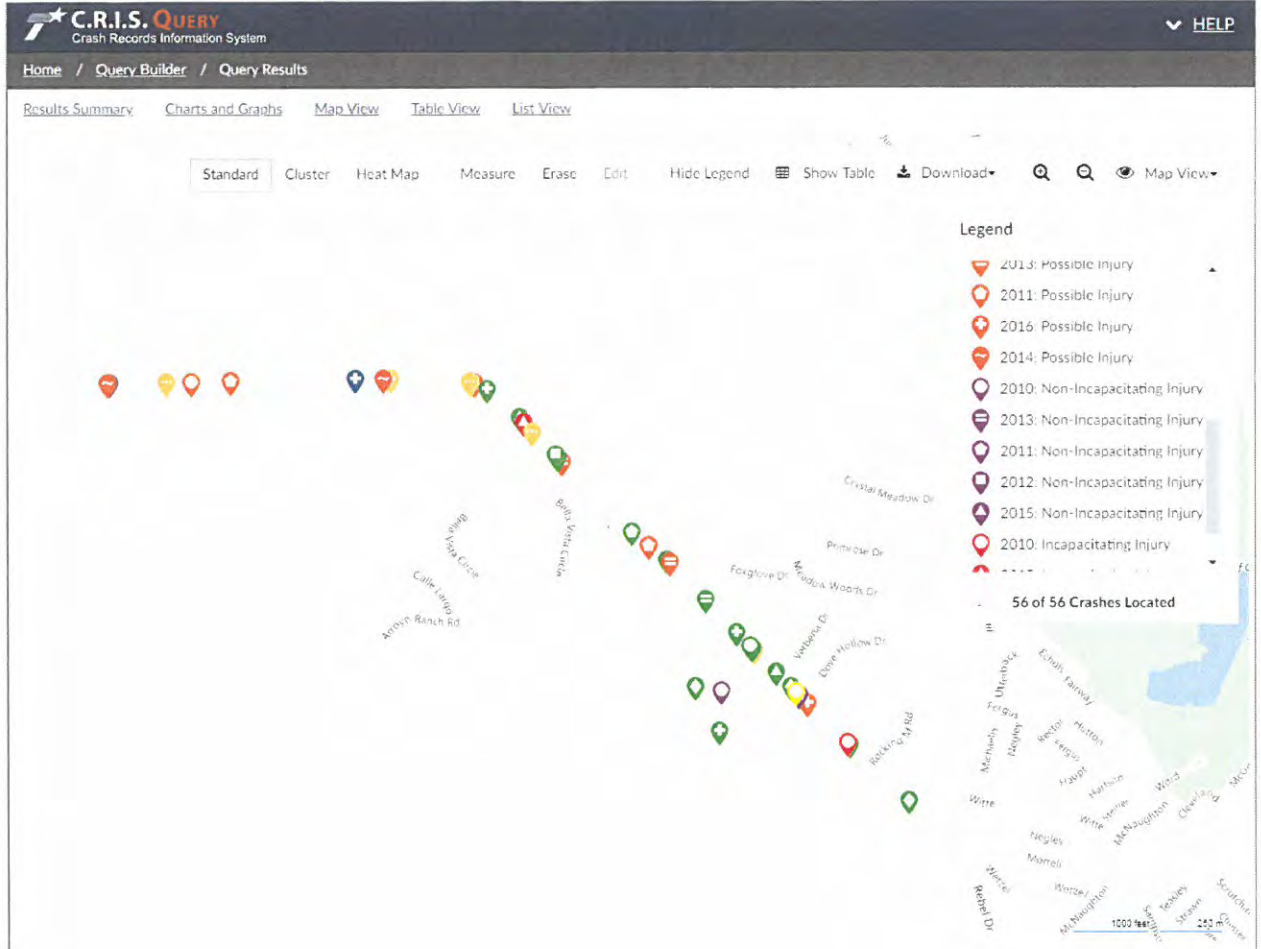

Thank you very much,

Jubal Grubb

We still do not see how this road is going to help a large number of residents in and around Kyle at the present time. It may help developments along this area in the future. With that said, after studying the maps you presented at the public meeting, it seems D2 would be our preference. The D1 route would definitely affect more of our neighbors in a negative way as traffic would increase significantly around established neighborhoods.

Subject: Beautification on Woods Loop extension, 78619
Date: Friday, August 3, 2018 10:35:41 AM

Assuming the proposed plan still calls for a straightening of a curving portion of RR150 where it meets the eastern arm of Woods Loop near RR12, this calls for the east section of Woods Loop to be extended to meet 150 again. Currently Woods Loop's intersection with 150 is surrounded by little snippets of land owned by the county or state or city or who knows who. Please LANDSCAPE around the new intersection of Woods Loop and 150. No one else will own up to doing it, so we need the plan to account for preventing a very unsightly stretch of road.

Thank you

Chuck Miller and many neighbors, 300 Woods Loop, Driftwood, 78619.

Comment: If it MUST be built then I believe options B-1 and D-1 would be the easiest to travel and the least destructive of existing properties. I still fail to see the advantage of this route, given that nearly 90% of traffic on RM150 coming from the west through Kyle turns NORTH on IH35. With nothing in sight for the future to the south of Kyle that would change that, why build it here at all?

As a resident of Wildcat Hollow, we would absolutely prefer the D3 option, as far away from our backyards as possible. D3 appears to pass close to the Madeline Manor business and I expect they would welcome easy access to their property/business. The road noise from the other options would be unacceptable. Residents of Wildcat Hollow are united and prepared to litigate if necessary, if the other options are chosen (D1-D2).

Respectfully,

Jim Williams

After reviewing the alignment map to re-route RM 150, I suggest that instead of making the zig zag to cut thru to Roland Ln why not make a straight road (Yarrington Road) from I-35 to Stagecoach Road and make improvements to Stagecoach Road. This road improvement will benefit everyone traveling from the Blanco Vista area into the Kyle Market Center area.

I hope that your committee will take my suggestion into consideration.

Thank you.

OFFICIAL COMMENTS (Please Print): Do you have comments on the initial alignment options?

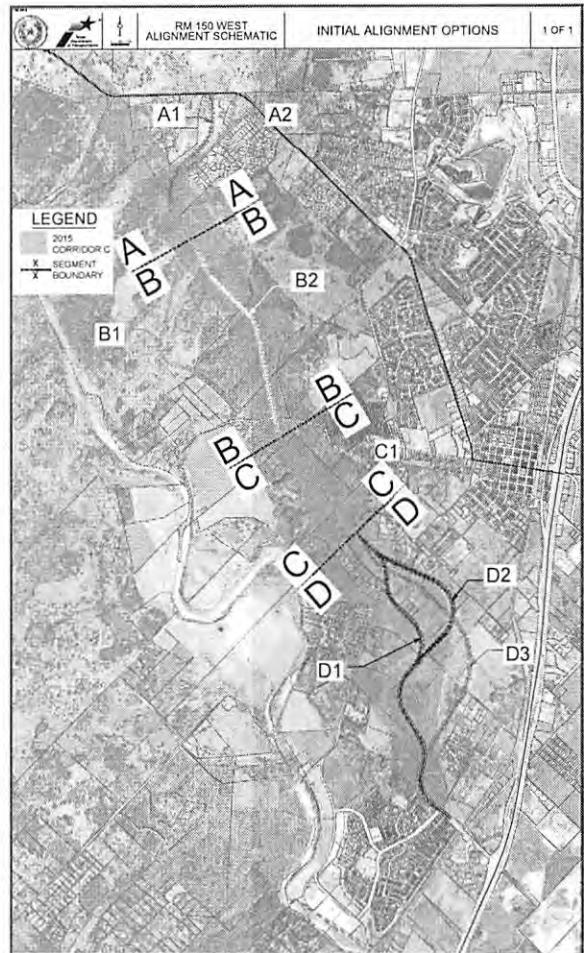

Please indicate alignment area A, B, C, or D for location specific comments.

I fully support the construction of the proposed RM 150 if it follows the B2 segment.

I oppose Segment B1 for the following reasons: Corridor C was selected after a lengthy process and a lot of public input. Segment B1 strays out of Corridor C and into Corridor D, a route previously rejected during the Corridor selection process.

Segment B1 is longer and has a tight radius curve that is effectively a right angle turn. Such a curve is dangerous and would require a much lower speed limit. Segment B1 also straddles several property lines west of Cypress Road.

Segment B1, as depicted, would be located in an area where there are significant steep slopes. All of these factors will make Segment B1 more expensive to construct than Segment B2.

Comment: The City of Kyle has a development with the Driskell property that does not include the proposed alignment. It is already going through the platting process. The property's eastern edge is the Union Pacific Rail Road. The North and South boundaries are Opal and Roland lane. There is a City of Kyle water tower in the middle. I marked the site location on one of the maps at the Wallace Middle School meeting.

Comment: We are very proud and happy to be a part of the FM 150 project. The goals and objectives appear to be carefully thought out and adjusted to fit changing circumstances. We feel confident that as the process continues we can look forward to the continued efforts of our representatives to make the best decisions for our county and its citizens. We were very satisfied with the decision to select Corridor C (Exhibit B2) as we believe the County was correct in selecting that location as the best one fitting the desired plan. That corridor for the most part is fairly straight, flat, and avoids deep drain ways that are closer to the Blanco River. We are not in favor of Alignment B1 as we believe it would cause the Blanco River more road contaminant runoff if FM 150 were to be placed further west and out of the original Corridor C. Also a more circuitous route (as shown in Alignment B1) would certainly be more expensive for the Hays County and TxDot and therefore less cost effective for the citizens of Hays County. Therefore we are against Aligment B1

Comment: We realize that Hays County is obviously experiencing significant growth which is resulting in urban sprawl with massive apartment complexes and closely adjoining houses and duplexes. Our families and neighbors are still farming and raising livestock. Considering the amount of acreage involved, this use of the land will continue for many years as a careful plan of development spaced out to meet the changing pace of real estate needs in the future. Owners must plan carefully to ensure AG exemptions are kept as the above process develops over the next 20-40 years. Wildlife appears to have taken a shot as rabbits, skunks, and armadillos are seldom seen. Fire ants are everywhere. We still are raising cattle but no more sheep or goats (coyotes and wild dogs). We have moved cattle on foot and with 20' cattle trailers from one side of the river to the other side. It will take careful planning of both Cypress Road and FM150 to allow the movement especially of cattle in the trailer as the truck and trailer is roughly 45' long. With this in mind, care should be taken to allow adequate width, road design (no divided roads at cross roads, or roundabouts, wide shoulders to allow for emergency pull-offs, etc.) In order for cattle and game move to water, feeding stations and pastures, underground passages will be necessary to allow a safer and more efficient way to accomplish the management of moving animals and keeping wild game off the roadway. For the reasons outlined above, we believe Alignment B2 is the best alignment for the county and the citizens of the county. We believe Alignment B1 would not be a good choice because (1) it is much closer to the Blanco River and thus cause more road runoff and be more apt to flood when drain ways back up during heavy flooding on the Blanco, (2) would be cost prohibitive due to its need for large bridges over drain ways and (3) also cost more money to build because it has a much longer route than the preferred Alignment B2.

Subject: BRRP LP comments of RM150 Alignment Project- Area B
Date: Friday, August 17, 2018 10:01:15 AM

To Whom It May Concern:

As the Project Manager, I am representing Blanco River Ranch Properties, LP's (BRRP) comments on the RM150 Alignment Project. BRRP supports the RM 150 Alignment Project with B1 as the alignment that is best route for us.

As depicted in the attached Rm 150 Map, I am providing comments on the Rm150 Alignment Section B1. BRRP supports the RM 150 B1 for the following reasons:

1. B1 will have the least construction impact on the Land versus B2
2. B1 will maintain the Hill Country look and feel versus a straight highway as in B2
3. B1 follows land plans
4. B1 will be the less expensive route to design and build than B2

If you any question, please contact me

Best Regards,

Albert Cortez
Project Manager - BRRP

Comment: Visited your open house in Kyle 8-2=18. Looks like a great plan for improvements to 150. I live in the area - something is surely needed. This plan looks a winner. Totally disagree with a vocal few who say this is for developers. Development is all ready here and will continue regardless of the roads.

Subject: Public Comments on RM 150 Realignment Project
Date: Friday, August 17, 2018 3:51:34 PM

To Whom it May Concern:

The following are my formal comments on the public open house I attended August 2nd in Kyle Texas.

As part of the project's purpose and need, it is stated that the realignment is "to provide additional links in the transportation network in a growing Central Texas Region." But according to the overwhelming response by the public at all of your previous open houses and meetings, no one wants this road. No one drives from San Marcos or Kyle to Dripping Springs or Wimberley on a daily basis (there is actually more traffic west of Buda for a few miles on 967). We drive to Austin or San Antonio. This is a developer-generated road.

Since it is development just to the west of Kyle that is pushing the need to realign 150 at this time, it is important that the road realignment remain on their property. The realignment should not encroach on the private property of individuals who are adamantly against the unnecessary realignment of this road. And this road should avoid the Blanco River and environmentally sensitive areas at all cost.

I am concerned about the environmental impacts of this new realignment. For years, the comprehensive plans of the cities of San Marcos, Kyle and Buda have tried to steer new growth to the areas east of I35 as the preferred scenario due to the availability of existing infrastructure. More importantly, the prairie to the east of I35 is not within the environmentally sensitive areas of the Edwards Recharge and Transition Zones. This realignment of 150 does just the opposite and will encourage new growth along the Blanco River and farther into the Hill Country. What responsibility is TxDOT willing to assume for future flooding of the Blanco River and the resulting destruction of property and perhaps even deaths?

In addition, there is very little infrastructure available in this area for future growth, particularly water. How will this be addressed or is the plan just to drain the Trinity Aquifer and pollute the Blanco River and its tributaries? Or, perhaps, there is no plan at all for accommodating the growth that will result from the construction of this road.

The City of Kyle has signed a development agreement with the Nance-Bradshaw Ranch to construct a bridge across the Blanco River to access their development at an estimated cost of \$30 million. The citizens of Kyle and San Marcos (and Martindale) oppose this bridge, although the City of Kyle has never bothered to hold transparent, public hearings on the subject. Many people believe this realignment project will encourage or directly lead to the construction of this bridge, which will impact our downstream cities with increased flooding. Could you address this issue in the future?

I'm concerned about which route large trucks and 18-wheelers will take in the future. Will they take the new realignment with its curved roads and longer distance through neighborhoods? Or will this large truck traffic continue through the center of Kyle? Are there any plans to prohibit trucks from driving through downtown Kyle in the future?

If RM 150 is "realigned," what happens to the existing segments of 150 through Kyle? Will the stretch of 150 (currently known locally as Rebel Drive and Center Street) become a local road, requiring local funds for maintenance and repairs? What about the segment of the existing 150 east of I35 to SH 21? This is a major connector to a state highway and the taxpayers of Kyle contributed a significant portion to the "realignment" of 150 at the intersection of I35 just a few years ago (along with major improvements to the overpass). Was that a total waste of our tax dollars? I asked these questions at the Open House of numerous people and no one knew the answer. At what point will this be decided so the City of Kyle can plan to include this in future budgets, if necessary?

What will be the economic impacts on downtown Kyle if 150 is taken off-system and becomes a local road with no

signage from I35? Since the ramps off I35 have already been changed to discourage traffic to downtown Kyle, has the decision already been made to promote the "Uptown Kyle" development in Plum Creek and the proposed developments at the Yarrington intersection?

By the way, your section on "Agency Scoping" on page 4 of the report, posted to the website just before the meeting, was left entirely blank. I look forward to reading it.

For the record, I prefer the "No Build" alternative.

I look forward to reading your EIS.

Thank you,

Lila Knight

OFFICIAL COMMENTS (Please Print): Do you have any general comments on the project?

DI route We have a development agreement with city of Kyle which as we know doesn't protect us from being bought out by a developer. If this route is selected the city ^{Kyle} + Hays County must further protect us ~~away~~ with a Farmland Preservation (some conservancy group) making sure we will not sell out years ^{your choice} later or if another road plan is put in place, basically buying out our development rights.

You need to read Justin Bates National Park Service what was given to Austin office as that document further deals with different options.

Creating a larger park by adding properties and Kyle Log cabin moved to ~~the~~ our land makes a southern route more feasible.

OFFICIAL COMMENTS (Please Print): Do you have any general comments on the project?

With
The route taken, our Farmland Preservation by Hays County + City of Kyle of Millburg Town would be a wonderful opportunity to supply and increase the number of residents with Certified Organic Produce

<https://wef.ch1241.com> creating an Agritopia/Agrihood a few of many new terms that could be enhanced (designed by the great planning dept of Texas State why they haven't even approached me is a mystery - or have been busy planning our property for something else.

- As you know I have to defend on several fronts being certified
- ① Organic prevents your roads + Opal in front as a 4 lane connector, so you will need to do baseline testing of our farm in multiple locations
- ② Future developments nearby
- ③ Amazon and their networks (value) as others are following the deal done on Facebook with Texas Land Conservancy with value ^{Ethics speech} to C. Council. Nothing will be signed, sold until Amazon makes their decision on the way land which needs the highway significantly increases our value.

DI, so nice to hear comments from citizens that the highway will not effect them at the meeting!

Not sure why you don't or won't list properties effected with landowners names on the route.

Just think of all my hours of research, collection, pain + suffering and especially significant my wasted time of 350 hours wasted that could have improved move of the additional 12 acres next to our farm that is also certified organic.

FROM THE FAMILIES at Wildcat Hollow Village.

We came here years ago because it was a quiet place to live. We want it to stay that way. All of us on Wildcat Hollow think that the D-2 plan would be best for us. We want the road to be the farthest away from us as possible and D-2 would be the one farthest away from Wildcat Hollow.

Thanks
Odhis Loosier

WELCOME

RM 150: RM 150 West of Kyle to I-35
Aug. 2, 2018

Thank you for being here and for your interest in the RM 150 project. Please review exhibits, visit with the project team, and ask questions.

Your input and comments are valued. Please share comments by completing a comment card or emailing comments to: info@improve150.com

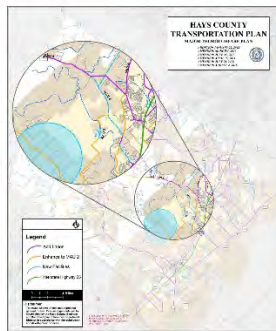

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

PROJECT HISTORY

2013

Hays County Transportation Plan identified need for RM 150 to be expanded to a four-lane divided road.

2014

One public meeting was held to introduce project and get input. RM 150 Alignment Study began with a large study area to identify the preferred alignment location.

2015

Two public meetings were held, and four corridors were evaluated considering engineering review, environmental considerations, and public input.

Corridor Evaluation Report identifying preferred Corridor C was developed.

The County and TxDOT coordinated to identify roles, responsibilities, and funding of the environmental study.

2018

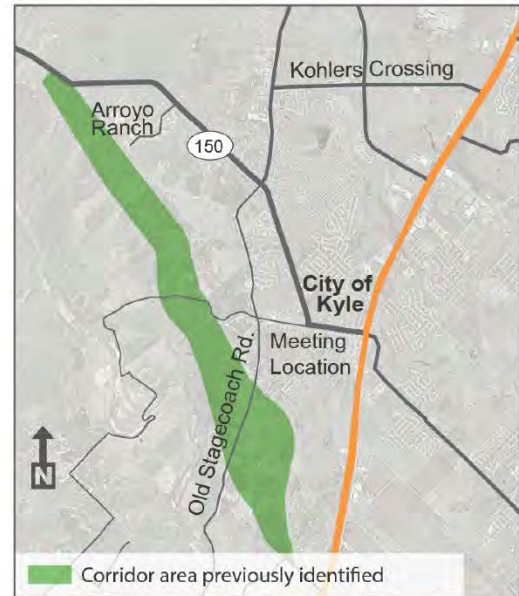

The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS).

A Notice of Intent to prepare an EIS was published on July 18, 2018.

Corridor C was identified as the Preferred Corridor, with the following considerations:

- Consistent with the Hays County Transportation Plan
- Provides the most feasible constructability
- Avoids impacts to business and public facility resources
- Allows for wider range of alternative alignments
- Best meets transportation needs of the study area
- Balances human and natural environmental impacts without inhibiting future growth and development of the community

Source: FM 150 West Alignment Study Corridor Evaluation Report

BACKGROUND

- RM 150 was originally built in 1956 to serve as a ranch to market road
- Significant development has occurred in the area since RM 150 was constructed
- The road has not been expanded to address how travel throughout the County has changed over time
- The nature and volume of travel continues to change with increasing development

Area Characteristics

Downtown Kyle

Center Street at UP Railroad

Center Street at UP Railroad

RM 150 at Rebel Drive

Rebel Drive at Roy Brooks Ave

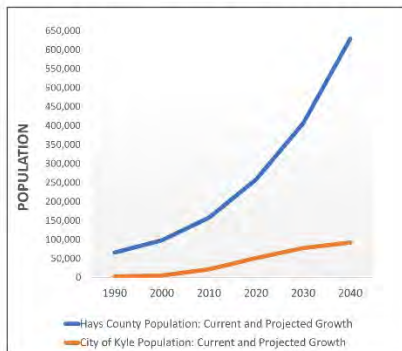

RM 150 near Halifax Ranch

PURPOSE AND NEED

The purpose of the proposed project is to relieve congestion and improve safety along the existing RM 150 facility from west of Kyle to I-35 and to provide additional links in the transportation network in this growing Central Texas region.

Congestion

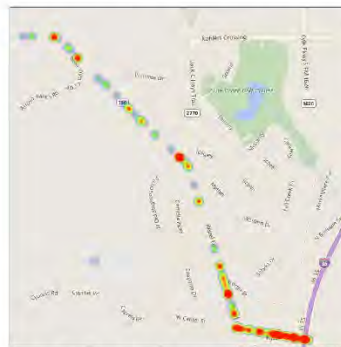

- Hays County grew 139% from 1990-2010, with a projected 300% from 2010-2040
- City of Kyle grew 864% from 1990-2010, with a projected 329% from 2010 to 2040

Source: Census Bureau, TWDB 2016 Water Plan, CAMPO 2040 RTP

Safety

- 254 reported crashes (2010-2017)
- Crash rate on RM 150 is higher than the statewide average

Source: TxDOT CRIS: The heat map shows the location of crashes on RM 150, with red indicating greater crash activity and green indicating lower crash activity.

System Linkage

- Limited connections to I-35
- UP railroad at Center Street causes backup

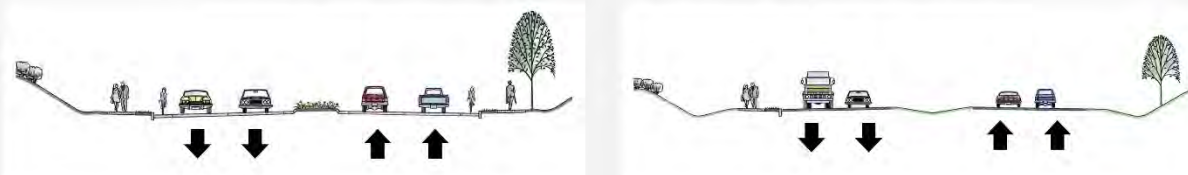

PROJECT DESCRIPTION

This Project Includes

- Evaluate alternatives to identify the location for RM 150
- Preliminary design of a four-lane divided road
- Bicycle and pedestrian accommodations

Example Roadway Configurations (urban and rural sections)

To construct this type of road, a minimum of 150 feet of right of way would be needed. Through this process, the right of way and roadway configuration would be refined, and the bike and pedestrian accommodations would be identified.

PROJECT PROCESS

Alternatives Evaluation

First, each alternative is reviewed to identify whether it meets the purpose and need of the project.

Does the alternative:

- ✓ Relieve Congestion?
- ✓ Improve Safety?
- ✓ Improve System Linkage?

Then, the alternatives will be evaluated in more detail using the following criteria:

Archaeological &
Historical Resources

Engineering Analysis
& Constructability

Land Use & Parkland

Public Input

ROW Impacts

Social & Community Resources

Threatened & Endangered Species

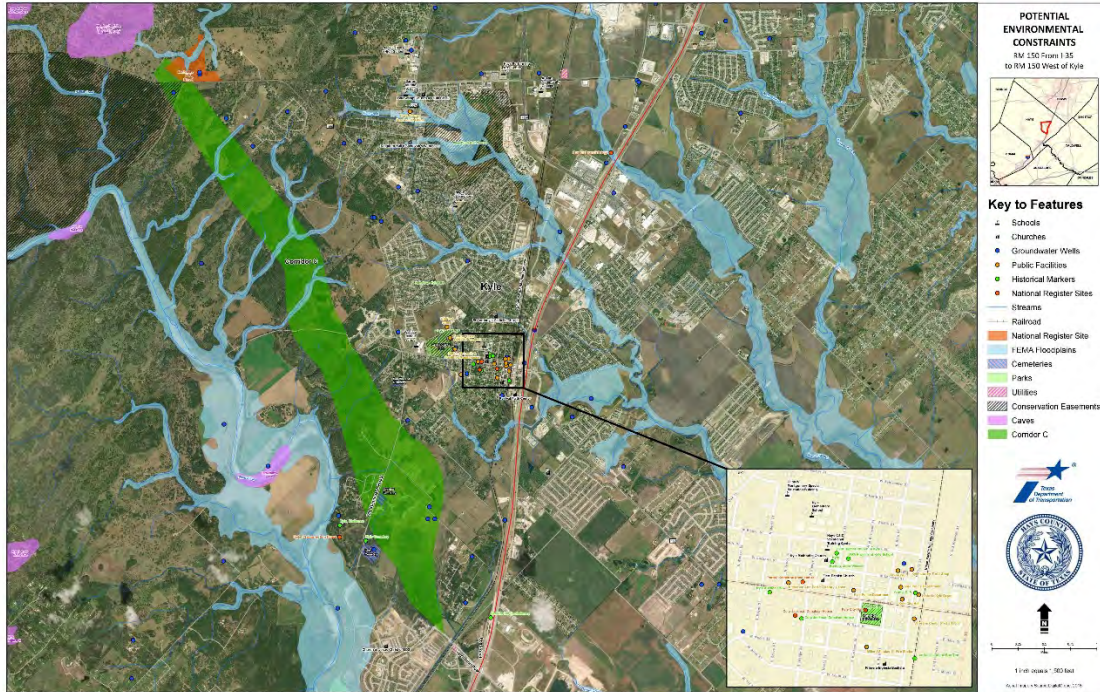

Vegetation & Wildlife

Water Resources

POTENTIAL ENVIRONMENTAL CONSTRAINTS

PROJECT PROCESS

Anticipated Schedule

Summer 2018 – Share initial alternatives, purpose and need, project updates, and gather input

Fall 2018 – Share results of preliminary evaluation of alternatives and gather input

Winter 2018-Spring 2019 – Perform technical analysis and prepare Draft Environmental Impact Statement (EIS)

Summer 2019 – Publish the Draft EIS, hold public hearing, and gather input

Summer 2020 – Receive environmental decision

Stay Involved!

- Attend public meetings
- Share input
- Reach out with questions or request a meeting

Initial Alignment Options Map

Hays County, in cooperation with the Texas Department of Transportation, is working on the RM 150 alignment project from just west of Kyle to near I-35.

The purpose of the proposed project is to relieve congestion and improve safety along the existing RM 150 facility from west of Kyle to I-35 and to provide additional links in the transportation network in this growing Central Texas region.

We want to hear from you!

Please reach out at any time with questions and comments.

F. Description of project modifications resulting from public meeting

The RM 150 Project Team held a workshop on August 23, 2018 to review public input and the additional 7 alignments drawn by the public. The project team identified evaluation criteria to evaluate all 15 initial alignment alternatives (8 presented in the public meeting and 7 added by the public). The evaluation will be shared with the public in the fall of 2018.

Initial Alignment Alternatives Evaluation Criteria:

- Is the alignment redundant to another alternative? Should the similar alternatives be combined?
- Would the alternative impact known 4(f) properties?
- Would the alternative bisect an existing neighborhood?
- Would the alternative impact a cemetery?
- Would the alternative require the construction of a new rail crossing?
- Does the alternative meet basic geometric and constructability engineering requirements?

To evaluate the initial alignment alternatives the team will utilize desktop analysis, known environmental constraints, aerial mapping, and best engineering and construction practices.
